(*iii*) The applicant has been normally meeting his requirements by arranging for his own imports.

(*iv*) That the needs are of a specialised nature and supplies are not likely to be easily available unless imports are specially arranged.

2. Actual users who wish to apply for import licences in spite of the fact that they engage less than 50 workers should clearly indicate the reasons justifying their application and in particular indicate what actual user licences they have received during July-December 1951 and January-June 1952. The applications will have to be submitted in the usual manner with the certificate of the State Director of Industries or the Industrial Adviser who may before granting the certificates make such enquiries as he may think fit to satisfy himself about the merits of the case.

3. What has been stated above will apply to raw materials required by industrial undertakings. Applications for machinery and spares will, as before, be considered whithout reference to the number of workers engaged.
